

ANNALISE KAMEGAWA

cognitive science & design
akamegawa98@berkeley.edu

WORK EXPERIENCE

- *2018- Present: UC Berkeley Library Communications Office - Graphic Design Intern*
 - In the communications office, I use Adobe InDesign and Adobe Illustrator to create graphics and promotional signage and advertising for events that are put on by the UC Berkeley Libraries. In addition to creating signage, I also help with managing the exhibits in and around the Berkeley libraries
- *2018- Present: The Daily Californian - Assistant Design Editor*
 - I assist the head design editor in producing and checking the layouts for the Daily Californian's published newspapers. In addition to managing layouts, I help to manage and schedule staff and plan events to boost staff morale.
- *2017-2018: The Open Computing Facility - Operations Assistant*
 - I helped to create promotional and instructional signage for the Open Computing Facility (OCF), an open source computer lab on campus. By creating these posters, we helped to bridge the gap between the technical staff and the everyday user.

EDUCATION

- *Major: Cognitive Science - Psychology*
 - UC Berkeley Cognitive Science major is an interdisciplinary major that focuses on the study of human thought. After completing a foundational course work in psychology, computer science, mathematics, and philosophy, I chose to focus my coursework in psychology.
- *Certificate of Design Innovation - Human Centered Design*
 - Through the Jacob's Institute of Design Innovation, UC Berkeley offers students the opportunity to study prototyping and other design processes. I chose to focus my coursework in human centered design, complimenting my major in Cognitive Science.

SKILLS

- *Proficient:*
 - *Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Google Suite, Cura*
- *Comfortable:*
 - *CSS, jquery, HTML, AutoCAD, Unity, Fusion 360*
